

Everest Mentor Flex VideoProbe[™]

Faster. More Accurate. Better.

Streamlined to simplify the complex. It's that simple.

As the worldwide leader in remote visual inspection (RVI) and video borescope technology, our intention has always been to empower inspectors to solve the complex with effortless simplicity.

With mounting demand to get inspections done quicker and cheaper, without compromising the accuracy of the results, most equipment can't withstand the pressure. Combining portability with military-grade durability, the Everest Mentor Flex answers the call with the features you've always wished you'd had, for the tasks that demand it all to help you make smart decisions, fast.

Raise the bar with an unrivaled digital inspection.

More precise and efficient everyday inspections are now possible with Waygate Technologies' Everest Mentor Flex VideoProbe™. And when you've got great image quality to easily identify defects and tools that eliminate the hassle, inspections become faster than ever before.

Intuitive innovation

Save time, improve quality, and streamline the decision-making process at every level.

- Virtual keyboard for faster annotation.
- · Multi-point touchscreen allows pinchto-zoom and swipe-and-pan gesture functionality.
- Menu Directed Inspection (MDI) improves efficiency with auto-tagging and automatic report generation.

Precise articulation

Navigate inspections thoroughly, and accurately, at a fraction of the time and cost.

- · Responsive and powerful articulation.
- Upgraded articulation design founded on high-power steering motors.

Meet measurement requirements with quality and evaluate defects in depth.

- Stereo measurement provides accurate analysis as you work.
- Comparison measurement checks the approximate size of defects quickly.

Rugged mobility

Expect top performance in even the harshest environmental conditions.

- Light, **portable**, and ergonomic design.
- Constructed with **ultra-durable**, military-grade magnesium housings.
- · Third-party tested.

This is what visible confidence looks like.

The Everest Mentor Flex delivers cutting-edge TrueSight[™] image clarity for more accurate assessments and increased probability of detection (POD). Expect high-quality, detailed images showcasing indications that were previously undetectable. See for yourself.

DISPLAY RESOLUTION WXGA

DARK BOOST

Assesses the content of scenes and intelligently adjusts levels to digitally brighten darker areas

COLOR SATURATION Provides high-quality images with vivid hues

DISTORTION CORRECTION Enables wide field-of-view optics without the distortions

TIP OPTICS

Variety of optical tip adapters to optimize based on depth of field and direction of view

Subscribe to peace of mind.

Downtime is costly, but with flexible service offerings like our Flex subscription and Visual Care Plan, you'll have the coverage to keep the Everest Mentor Flex where you need it: in your hands. Because less downtime means more uptime.

LIGHT OUTPUT

Best-in-class white light LED

CAMERA RESOLUTION 440k-pixel image resolution

Prepare for a more predictable future.

Powered by InspectionWorks and dual-band Wi-Fi to make inspections consistent and efficient, the Everest Mentor Flex VideoProbe[™] supports wireless file transfers and video streaming to iOS devices, resulting in improved efficiency and flexibility on the job. And no matter what the future holds, easy wireless upgrades and planned software releases guarantee you'll be equipped for what's in store.

·C

Get the most out of your inspection.

With these add-ons, you can maximize versatility and productivity while minimizing total cost of ownership for your Everest Mentor Flex device.

No matter the application, the Everest Mentor Flex can accommodate a wide variety of cases, including hands-free use, improving ergonomics and making everything that much simpler.
